Project Spiritual Hope Zimbabwe 2005

*"Our nation
needs healing."*

Edward Mutema,
General Secretary,
Bible Society of Zimbabwe.

The nation of Zimbabwe has experienced many years of conflict. For 20 years between 1980 and 2000, the country enjoyed some growth and stability, and was sometimes referred to as the "Switzerland of Africa". In the last few years, Zimbabwe's situation has dramatically deteriorated and the country now faces many serious challenges. Poverty, the AIDS epidemic, economic hardship and political uncertainty combine to create a bleak picture for many Zimbabweans.

These circumstances have created an unprecedented demand for scriptures. People are searching for meaning and hope. They are looking for answers to the challenges they face.

God is at work in Australia, in Russia, in China and in Zimbabwe. In all the nations of the world, the Father's heart beat is for people - all need the universal message of Jesus Christ. As we partner together in the work of the Gospel, we bring glory to God as relationships, families, homes, communities and entire nations are transformed by His life giving Word.

Partner with the Bible Society in 2005 through prayer and financial support to bring spiritual hope and healing to the hurting nation of Zimbabwe. Many people desperately want the comfort of God's Word, but cannot afford a Bible. Through your partnership you can change people's lives today.

You Can Have Your Own Bike For Bibles Ride

Many people find their Bike for Bibles event to be a time of bonding, as they work together for a common Christian purpose.

Organising your own Bike for Bibles ride is a fun way to build an atmosphere of expectation, and then of achievement working together for God's Kingdom.

As the organiser of the ride you decide when, where, who and how for your event, with as much support as you need from the Bike for Bibles office.
